

I am writing in support of station K-LOVE. I have been able to listen to this station's broadcast in both large and small communities where there are no other comparable stations. It serves a vital part of each community in playing quality music and encouraging comments. The staff is committed to it's audience, giving updated information regarding current events that are specific to each community it serves. This is information that often could be found in no other one location. Please apply my comments here toward keeping this station on the air. Thank you.
